COUNTER APP — TALLY & CLICKER · PRINTABLE SHEET

Traffic & Pedestrian Count Sheet

15-minute intervals, two directions, four modes

HOW TO USE

1. Write the count point, and what Direction A and B mean (for example northbound and southbound).
2. Stroke each passer-by in the current interval. Move to the next row at the exact quarter hour.
3. Total each column at the end. Note anything unusual, such as an event, rain or roadworks.

Count point / street _____ Date _____

Direction A = _____ Direction B = _____

Observer _____ Weather _____

Interval start	Pedestrians A	Pedestrians B	Cyclists A	Cyclists B	Cars A	Cars B	Heavy veh. A	Heavy veh. B	Note
